Sir:

In response to the Office Action dated August 8, 2001, please amend the above identified application as follows:

IN THE SPECIFICATION:

Please replace the paragraph beginning at page 3, line 7, with the following rewritten paragraph:

The impeller of the present invention is readily injection molded with well known injection molding equipment and with conventional plastics presently used in coolant pump impellers. The impeller of the present invention produces a highly cost-effective structure with both manufacturing and assembly costs, as well as an improved and long life pump assembly.
